Customer: Paragon PE LTD

Product: Germ Warfare Hygienilac Fabric Softener

Work Order: 1032

Batch: None provided

Sample: S0709230

Test Date: 25 September 2007

Quote: Q279

Test Method: **BS EN 1276**

DN = Neutralisation method Vc Viable Counts R = Log Reduction

Pass Criteria : BSEN 1276: >Log 5 (1.0 x 10⁵)

Validation Criteria: Meet the requirements of the British Standard.

Conclusion: A greater than Log 5 reduction was obtained for all organisms tested at dilution 1/400 after 5 minutes contact with sample.
