

# Halo Proactive Sports Wash Detergent

**Halo Proactive Sports Wash is the worlds first Non Bio Laundry Detergent design specifically for SPORTS wear clothing**

## **Sportswear formula**

- Removes sweat & odours
- Designed for sportswear
- Works as low as 30 degrees
- Tough on stains
- Anti fungal & Anti Bacterial

## **Fabrics**

Halo Proactive sports wash Non Bio detergent is safe on most common fabrics (cotton, polyester, denim) and widely used sportswear clothing such as. Lycra, Gore-Tex, Nylon, Elastane, Spandex, Viscose and many more.

## **Training Shoes**

Bad odours caused by bacteria and fungi growths can be significantly reduced by cleaning training shoes with Halo Proactive Sports wash Detergent. Used in the wash cycle proven effective against Athletes foot fungus

## **How it works**

- ✓ Bacteria caused by sweating trapped in the weave of the clothing produce bad odours. Most detergents mask odours by leaving soap residue on your clothing.
- ✓ Halo Proactive Sports Wash kills the bacteria which are trapped in the weave of the fabric thus allowing the clothing to breath.
- ✓ It continues to work by leaving behind active agents in the weave of the clothing.
- ✓ British Standards approved. EN1275 approved. Independently tested by UK laundry technology centres.
